Work experience

System Creator

March 2018 — August 2018

Full-stack Developer (Intern)

- It was my responsibility to manage the design and development of a certain project(Web App)
- The team had 7 developers including me
- Only worked on 1 project and it was a web-app

- Technologies used were (Laravel - Vue) and the DB (MySQL)

Inspire Technology Solutions

March 2019 — Present

Front end Developer(Part-time)

- My responsibilities include but not limited to editing and modifying static websites also the UI of Wordpress Themes.
- The team have 5 developers including me.
- Worked on more than a project including the company's main website.
- Technologies used till now (Html, Css, Javascript, and JQuery) also other Wordpress plugins like WP bakery and Elementor.

Check the company's website here: <https://www.inspire-ts.com/>

Upwork

April 2019 — Present

Front end developer(Freelance)

- My responsibilities are doing frontend work whether it's on a static or dynamic website, dealing with frontend frameworks like Vue and Angular
- There's no team I'm on my own
- Worked with more than a client and they expressed their gratitude and praised my work
- Technologies I use are every technology I know of, have developed with, and have experience with it
